

PowerSync Pro™ SMART HUB GEN 2

ZERO-TOUCH APPLE iOS PROVISIONING FOR RETAIL

Charge, provision, and re-provision a shared pool of iOS iPhone or iPadOS devices.

For retail organizations looking to manage a large pool of mobile devices for point of sale, curbside pickup, or inventory management, PowerSync Pro™ Smart Hub provides a best-in-class hardware experience for simplifying device management. When combined with Apple Provisioning Utility (APU), organizations can gain control of their devices by automating provisioning, lowering support costs, and improve work-flow efficiency.

ZERO-TOUCH I.T.

The partnership of the PowerSync Pro Smart Hub and the powerful provisioning software provide IT departments the ability to simplify management of devices and save critical time.

GROWTH IN MIND

The PowerSync Pro Smart Hub is designed to grow with your organization. Daisy-chain and power up to three trays or 40 devices with one Mac mini.

SELF-CONTAINED

Secure dedicated compartment under the hub for securing the Mac mini (2018) to run Apple Configurator 2 software (AC2), Apple Provisioning Utility (APU), or GroundControl Launchpad.

BUILT TO LAST

Designed and Built in the USA.

OPTIMIZED FOR iOS DEVICES

SIMULTANEOUS CHARGE AND SYNC
Hub maintains full charging rate (up to 2.4A*) even while connected to a host Mac mini for syncing and provisioning.

**Requires Mac host. Up to 1.5A charging with Windows host.*

STATUS ON-DEMAND | LED lights located next to each device show charging status and let you know when the device is ready for use.

EASY CONNECTION | Larger L models include USB-C passthrough port for easy connection of other peripheral devices to the internal Mac mini.
