

Bretford Connect[®]

for managing
TechGuard Connect[®]
Charging Lockers

Charge Easily. Manage Powerfully.

Paired with the TechGuard Connect charging locker solution, Bretford Connect offers a powerful, cloud-based platform for organizations to remotely configure lockers, manage the loaning of devices, and access real-time usage logs, all from one intuitive interface.

GAIN CONTROL WITH CENTRALIZED MANAGEMENT

Whether you have one locker or 1000 lockers, Bretford Connect simplifies management with a single centralized overview of your entire locker deployment.

The dashboard provides a convenient at-a-glance view into important locker usage data, allowing your organization greater insight into managed assets. Real-time status allows the administrators to view changes instantly.

The software management tool allows you to configure lockers, remotely open or disable locker bays, assign devices for check-out, and push updates to your entire fleet.

MANAGE LOCKERS

Assign individual locker bays to specific users.

Assign assets to lockers in Check-In/Check-Out mode.

Perform over-the-air (OTA) firmware updates.

MANAGE USERS

Hierarchical permissions allow you to assign permissions to multiple administrative users.

Bulk user import allows you to upload user information all at once.

MANAGE ASSETS

Manage automated loaning of assets from lockers in Check-In/Check-Out mode.

Keep track of asset information and metadata .

SECURE BY DESIGN

Communications to Bretford Connect are protected with 128-bit end-to-end encryption. In addition, TechGuard Connect charging lockers feature a built-in crypto-authentication chip that provides an extra level of hardware security, preventing impersonating hardware from gaining unauthorized access to Bretford Connect.

EXTENSIBLE

REST (Representational State Transfer) APIs enable organizations to build applications to connect Bretford Connect to other data sources, enabling automation and better integration with existing systems.

ACCOUNTABILITY

When paired with RFID authentication, Bretford Connect provides an audit trail, streamlining the compliance process and helping IT administrators monitor locker usage.

FLEXIBLE LICENSING

Licensing agreements for the Bretford Connect software platform are available in increments of one, three and five years.*

SCALABLE

Bretford Connect can accommodate the addition of thousands of lockers on one centralized network, anytime from anywhere. Built on the power, scale and reliability of the world's leading cloud provider, it operates independently from dedicated servers or additional hardware.

**TechGuard Locker system cannot be purchased on its own. It requires the Bretford Connect software platform.*
