

USE CASE

INDUSTRY
Higher Education
Amenity Charging

PRODUCT
Bretford Charging
Lockers

APPLICATION

As mobile devices continue to become vital to the learning experience, the need to keep devices powered and charged increases.

SOLUTION

Bretford's TechGuard Charging Locker is a simple, secure solution for everyday on-the-go device charging. Lockers can be deployed in common areas such as cafeterias, lounges, libraries, and athletic facilities. Providing easy access for a quick charge.

CHALLENGE

The demand for power and outlets has increased to a point that students and faculty require a solution to charge both their personal devices as well as those used for learning.

YOUR IDENTITY

Lockers can be customized with school colors and logos.
